

Alexey Grigorev

# Practical workflow: Module 1

A practical note for AI-Native Developer  
Workflow: Using AI Tools Without Losing  
Control

# The problem

AI coding tools can move quickly, but a vague request often turns into a vague implementation.

# Control 1

Start with a concrete spec, not a vague coding request.

# Control 2

Put reusable context in repository files, not only in chat.

# Control 3

Ask the agent to plan before it edits.

# Register for the workshop

AI-Native Developer Workflow: Using AI Tools  
Without Losing Control
