

Alexey Grigorev

Reminder: Module 2

Build and Ship an AI-Assisted Full-Stack App I
August 3, 2026 at 6:00 AM PDT

Why join

AI can generate frontend or backend code, but full-stack work fails when the parts drift apart.

What we will cover

How to use AI tools from product spec to deployed full-stack app.

For the cohort

Use this session to prepare for AI Dev Tools
Zoomcamp 2026 and the final project.

Bring questions

There will be time for practical questions about tools, workflow, review, testing, and shipping.

Register for the workshop
