

Alexey Grigorev

Reminder: Module 3

Coding Agent Capabilities: MCP, Skills,
Plugins, and Custom Agents | August 17,
2026 at 5:00 AM PDT

Why join

A coding agent becomes more useful when it has the right instructions, tools, permissions, and repeatable workflows.

What we will cover

How modern coding agents are extended and customized.

For the cohort

Use this session to prepare for AI Dev Tools
Zoomcamp 2026 and the final project.

Bring questions

There will be time for practical questions about tools, workflow, review, testing, and shipping.

Register for the workshop
