

Alexey Grigorev

Reminder: Module 4

Open-Source AI Tools for Security, Audit, and
DevOps | August 18, 2026 at 5:00 AM PDT

Why join

AI-assisted projects still need security scanning, audit trails, incident investigation, and deployment discipline.

What we will cover

How to use open-source AI tools around security, audit, and DevOps workflows.

For the cohort

Use this session to prepare for AI Dev Tools
Zoomcamp 2026 and the final project.

Bring questions

There will be time for practical questions about tools, workflow, review, testing, and shipping.

Register for the workshop
