

Alexey Grigorev

Reminder: Course launch

AI Dev Tools Zoomcamp 2026 Course Launch
| August 31, 2026

Why join

The new cohort starts with the same question many developers have: how do we use AI tools without losing control of the code we ship?

What we will cover

How the AI Dev Tools Zoomcamp 2026 cohort works and how to start with a clear workflow.

For the cohort

Use this session to prepare for AI Dev Tools
Zoomcamp 2026 and the final project.

Bring questions

There will be time for practical questions about tools, workflow, review, testing, and shipping.

Register for the workshop
